SUMMARY

As a dedicated Full Stack Developer, seeking to contribute robust technical expertise to a vibrant team. I'm keen on gaining practical experience in creating scalable, user-friendly applications, and enhancing my Front and Back End Development skills. I'm committed to delivering high-quality code and innovative solutions for business success.

SKILLS

- React | Redux Toolkit | JavaScript | HTML | CSS | Bootstrap | JQuery | TailwindCSS
- Java | Node | Express | Python | SQL | MongoDB | SpringBoot
- Git | Microservices | REST | Docker | Linux

EXPERIENCE

- Lets Grow More - Web Development Intern**

10/23 - 11/23

Developed responsive landing pages and completed several small projects, including a React-based To-Do list and a JavaScript-powered Calculator.

- Oasis Infobyte - Web Development Intern**

9/23 - 10/23

Successfully, designed a temperature converter website, personal portfolio, implemented authentication, and crafted multiple landing pages.

EDUCATION

- Bachelor of Technology in Computer Science**
